

## Brunswick Pipeline to begin summer clean-up

Final clean-up of the Brunswick Pipeline 145 kilometre natural gas pipeline Right of Way (RoW) will begin in the urban area on May 25, 2009. The general contractor, Louisbourg Pipelines, will begin work in the Red Head area and continue westward. Work in the rural section will start near Dennis Stream on June 1 and move northeast toward Saint John.

Because construction was completed during the winter, some areas still require preliminary clean-up activities including backfilling and ground contouring. As part of final clean-up, the RoW will be restored similar to adjacent surroundings. For example, in grassy areas the RoW will be reseeded with a mix of native grasses and plants approved by the New Brunswick Department of Environment while wetlands will remain in their natural state. Work will be carried out using bull dozers, backhoes and trucks, and will employ approximately 55 workers. Clean-up is expected to be completed by late September.

To ensure safety all work will be under the direction of experienced foreman, Brunswick Pipeline inspection staff trained in working around “in service” natural gas pipelines, and in accordance with National Energy Board Regulations.

In early February, 2009, air was purged from the pipeline and natural gas introduced into it. All equipment has since been commissioned and Brunswick Pipeline is ready to flow natural gas.

### **About Brunswick Pipeline**

*Brunswick Pipeline is a wholly owned subsidiary of Emera Inc. (EMA-TSX) an energy company based here in the Maritimes. We are proud to support the addition of a new and abundant supply of clean-burning natural gas in our region. Brunswick Pipeline will deliver natural gas from the Canaport™ Liquefied Natural Gas (LNG) receiving and re-gasification terminal near Saint John, New Brunswick to markets in Canada and the US northeast. The 145 kilometer pipeline extends through southwest New Brunswick to an interconnection with the Maritimes and Northeast Pipeline at the Canada/US border near St. Stephen, New Brunswick. Maritimes and Northeast Pipeline has been contracted to operate the Brunswick Pipeline. Visit Brunswick Pipeline's website at [www.brunswickpipeline.com](http://www.brunswickpipeline.com).*
